

25 November 1970

**MEMORANDUM FOR THE RECORD**

**SUBJECT: Conversation with Victor Zafra, Office of Management and Budget**

1. I called Victor Zafra today and inquired about the status of S. 2984, the bill which would provide retirement credit for periods of service normally covered only by Social Security. Zafra reviewed much that we already knew, i.e., the bill had passed the Senate, the House Ways and Means Committee was anxious to move it, the Civil Service Commission was very much in favor of it, and Social Security was opposing it. On this latter point Zafra commented that this was really not a matter of Social Security jurisdiction.

2. Zafra also said the difference between the CSC and Social Security positions was supposed to have been resolved during his absence but for some reason this had not occurred. He said he was glad I had called his attention to the bill because he wanted to clear departmental reports on it quickly.
